

## ABORTION WORLDWIDE REPORT: PART V

### A SACRED ACCOUNTING:

#### Table of Abortions for 100 Nations and Territories, 1921–2015

*Wm. Robert Johnston and Thomas W. Jacobson*

The following tables document a sacred accounting of the babies whose lives were destroyed by abortion between 1921 and 2015—the greatest genocide in history of over 1 billion unborn children. For each of the 82 nations and 18 territories and other regions included, the accounting begins the year that the government authorized abortion through 2015, with a few exceptions. Abortion data for prior years is included if available.

Johnston began gathering abortion data on nations in 1983, and his more complete compilation is on his website (see end of table 1-D). Jacobson began compiling national data in 2002. They combined their databases to produce this sacred accounting and report.

The tables contain **4,915 country-years of data**, of which:

- 3,631 Actual reported country-years of data (normal text);
- 629 Tier 1 estimates are tightly constrained to actual reported numbers (*italics*);
- (655) Tier 2 estimates are less constrained, but still anchored to a subsequent or prior reported number, with some exceptions based on individual country research (*italics within parenthesis*).

For some countries, or groups of countries, the estimates are explained in working papers posted on: [www.johnstonsarchive.net/policy/abortion/awr.html](http://www.johnstonsarchive.net/policy/abortion/awr.html), and [www.globallifecampaign.com/abortion-worldwide-report](http://www.globallifecampaign.com/abortion-worldwide-report).

#### **The Table (1921–2015):**

Table 1-A: Africa, Americas and  
the Caribbean, Oceania  
Table 1-B: Asia, Europe  
Table 1-C: Europe (continued)  
Table 1-D: Summaries (% , ratio, population)

#### **Groups of Nations:**

Africa (5 nations + 2 territories = 7):  
Americas and the Caribbean (12 + 7 = 19)  
Asia (20 + 2 = 22)  
Europe (43 + 5 = 48)  
Oceania (2 + 2 = 4)

**Range of years**—from year of authorization (or prior year if data available) to 2015.

**Total abortions** for each country are at the end of the table, and are not rounded, regardless of whether they include rounded estimates for certain years.

#### **Data Sources:**

The full list of 500 sources is in “Addendum II: Data Source List” at the end of this report.

#### **Rounding for Estimates:**

- under 100, to nearest 10;
- under 100,000, to nearest 100;
- over 100,000, to nearest 1,000.
