

### India: Reported abortions, 1974-2014

2 July 2016

Wm. Robert Johnston

**Abstract:** This document summarizes adopted figures for reported abortions in India for 1974-2014.

The Indian Family Planning agency reports abortion figures for the nation and for individual states by fiscal year (which runs April to the following March). In addition, many individual states report respective figures. Differences between the various sources are common. Given the likelihood of underreporting, the approach here is to adopt the highest authoritative figures for each region and reporting year, including Indian-wide totals derived from combining individual state figures. For totals derived from state-by-state highest reported figures, the individual state reported figures and corresponding national totals are from Johnston (2014). Table 1 summarizes results from various sources and indicates the final adopted figure for each year and the corresponding source of each figure.

**Table 1. Abortions in India by fiscal year, various reports.**

Fiscal year	Abortions, final	Source	Abortions, UN figures	Source	Abortions, India figures (INDI11a)	Abortions, India figures (INDI16*a)	Abortions, India figures (other)	Source
1972-73	24,300	T81a
